

Portfolio Excess

Markel's portfolio excess product protects health insurers against catastrophic claims that could expose an entire portfolio, or defined book of business, to unnecessary risk. Protection options include: per person, dollar-denominated "excess" coverage; and/or "carve-outs" by diagnosis type. Quotes are typically generated within 72 hours.

Product Description

- Per person (specific) excess coverage
- "Carve-out" coverage
- Flexible deductible levels
- Limits up to \$5 million
- Access to National Centers of Excellence for organ transplant/cancer claims at no additional charge
- Access to medical case management/disease management programs at no additional charge

Target Classes

- Health insurers (including HMO's) offering fully insured or self-insured medical plans
