Typical clients

- Recent college graduates
- Professionals in between jobs
- Individuals waiting for group coverage to begin
- Seasonal workers
- People who cannot afford comprehensive health insurance

Comprehensive Accident: Fill a need, earn high commission

An estimated 47 million Americans have no or inadequate medical insurance. Providing some type of coverage to every citizen is a well-documented problem that has become a national priority.

For many of the uninsured and underinsured, a nagging question hangs in the back of their minds, "What if something terrible happens?" An accident could create an enormous financial burden, and finding affordable coverage can seem overwhelming or impossible at times.

For many of your clients, Markel's newest product, Comprehensive Accident insurance, could help relieve their anxiety and earn money for you with minimal effort.

Comprehensive Accident

[Comprehensive Accident](#) (CA) insurance **covers medical and related expenses resulting from an accident.** It does not cover sickness claims. For as little as \$25 per month, \$1 million in coverage can be purchased. CA is guaranteed issue/renewable and requires no medical underwriting.

CA is an especially smart choice for people in their 20s and 30s who are uninsured. For a small monthly premium, expenses resulting from an automobile, sports, or minor accident are covered. This new product offers an inexpensive means of protecting assets and credit ratings, while providing peace of mind.

Short Term Medical

Another option, [Short Term Medical](#) (STM) insurance, **covers medical and related expenses resulting from illnesses *and* accidents.** STM is popular with recent college graduates, unemployed people who do not qualify for COBRA, and seasonal workers. Benefits are comprehensive, and the coverage can be purchased for as little as 90 days, or up to a full year.

15% Commission: Start quoting today

A simple link on your web site can earn you up to 15% commission. For both Comprehensive Accident and Short Term Medical, the quoting and back-office support functions are entirely paperless. Coverage is currently available in more than [40 states](#).
